UNDERSTAND AND ANALYSE INTERNATIONAL FINANCE IN THE BUSINESS AERA

IN PARIS, THE HEART OF ONE MOST IMPORTANT FINANCIAL CENTERS OF CONTINENTAL EUROPE

Finance, Business risk Management and Portfolio management, drive company evolution. Indeed, finance enables to develop strategic responses and align company objectives. The MSc in International Finance will teach you to support corporate strategy and financial markets. With growth and in a favourable global environment, companies are increasingly facing financial changes. Financial valuation, Mergers & Acquisitions, Portfolio diversification, Financial instruments, Digital currencies and Blockchain technology are among the fundamental topics included by managers in their financial strategy. Company development and strategic decisions are increasing growth of activity. New jobs are required to support organisations in their financial and strategic evolutions.

GENERAL AIM

The MSc in International Finance is organised to provide you with the multiple skills required to become a financial analyst in a financial institution or a finance department. This program is designed for students wanting to participate work in corporate decision making with firms and market activities. This programme will enable you to identify the most appropriate strategies to be implemented to cope with financial challenges. After completing this

programme, you will be ready to implement financial strategy and understand financials frameworks. You will study the financial principles to enable you to intervene in international finance operations. You will be capable of identifying the financial opportunities, and the strengths and weaknesses of organisations engaged in financial operations. You will be able to implement new management frameworks in financial departments and become an actor in financial markets. The MSc trains students to be capable of identifying the most efficient financial operating procedures in international firms within corporate and market finance.

MULTIDISCIPLINARY COURSES IN CONNECTION WITH THE FINANCIAL INDUSTRY

This MSc will enable you to participate in operational cases interacting directly with companies' financial teams, and to understand strategic decisions and financial options. This programme is based on the existing synergies between the schools of the Pôle Léonard de Vinci: ESILV (Engineering School) and EMLV (Business school).

Yves Alain Ach is the Director of the MSc International Finance. His experience, both academic as a Professor for 20 years and professional as a partner in a consultancy agency, enable him to reconcile the teaching programme with the world of Finance industry. Yves Alain Ach, PhD. in management sciences, is currently a Professor at the Léonard de Vinci Business School (EMLV).

DISCOVER HOW TO STAND OUT IN A CHANGING WORLD

Over the past ten years, the most successful financial businesses have been developed around new models. The financial eco-system evolution, the compliance and ethics' rules, the industry's change enable the construction of efficient and effective financial companies.

ONE OF THE BEST PLACES IN THE WORLD TO STUDY

The Paris area is France's leading economic region with the highest Gross Domestic Product (GDP) in the EU28 (30.3% of French GDP and 4.5% of the European Union's GDP) and one of Europe's foremost business hubs.

With 12 million inhabitants, the Paris Region hosts 18.1% of Metropolitan France's population. (source Paris region key figures 2018 p.3). The year 2018 is a turning point for relocations of banks in Europe. The Financial Times (october 2018) reports that the giant US asset manager BlackRock and JP Morgan Chase, the largest US bank in terms of assets, will soon join Bank of America and Citigroup in Paris. This will be a chance for the development of this industry in France and for the international development of major French banks.

PARIS IS THE FIRST STEP TO YOUR INTERNATIONAL CAREER

You will have access to numerous resources such as the Bloomberg terminals, the Learning Centre, classrooms equipped with the latest technologies...

THE SCHOOL
